Why should you attend?

There is a constant pressure for the complete decriminalisation of abortion in Queensland. There is always a danger that a Private Member's Bill could be brought forward.

Complete decriminalisation means:-

- 1. Abortion would be allowed up until birth for any or no reason
- 2. Abortion would be available throughout public hospitals thus implicating and pressuring more medical personnel to be involved
- 3. Pro-life doctors would be compelled to refer women to others who are pro-abortion (as in Victoria)
- 4. Catholic/Christian hospitals would be under pressure to refer for or provide abortions.

Is this the kind of Queensland you wish to live in?
